Peter Behr Circle

Point Reyes National Seashore Association (PRNSA) gratefully acknowledges the support of our Peter Behr Circle members. As the primary nonprofit partner of the Point Reyes National Seashore, PRNSA works with the National Park Service to preserve and enhance the park's extraordinary natural and cultural communities. The Peter Behr Circle is a group of friends whose annual gifts of \$1,000 or more provide fundamental, ongoing support for the preservation and restoration of the Point Reyes National Seashore. As a member of this special group of supporters you are a leader in the effort to care for our park and make it accessible to all.

Clem Miller Environmental Education Center

We are thrilled to welcome Fireside Chat guests to the Clem Miller Environmental Education Center, the basecamp for many of our youth and adult education programs. Take a tour of the center and enjoy refreshments and conversation with fellow supporters before gathering around the campfire for the “chat” portion of the event with Superintendent Cicely Muldoon and Executive Director Samaria Jaffe.

Named for Clement Woodnutt Miller, the United States Representative who authored the legislation establishing Point Reyes National Seashore, the Clem Miller Environmental Education Center is located in a secluded valley in the Phillip Burton Wilderness just two miles from Limantour Beach. The Center accommodates up to 86 overnight guests in five spacious dormitory-style cabins. Facilities include a large cedar lodge with dining room, science library, commercial kitchen, and bathhouse. The site also includes a large central meadow, a campfire circle, and immediate access to the Coast and Laguna hiking trails. The center is a model of ecological sustainability with composting and recycling systems, solar-heated water, and photovoltaic modules for electricity.
